

NEW PowerPulse™ PRE-RINSE

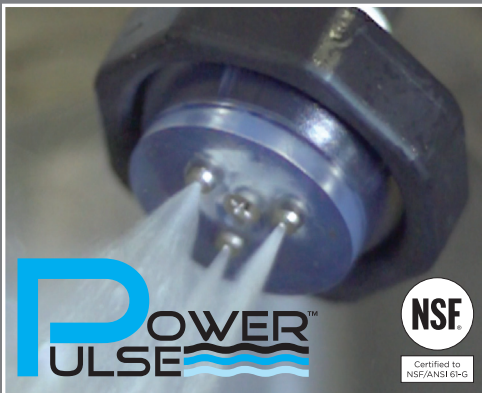

The most efficient spray valve in the industry –
but don't just take our word for it.

"The PowerPulse Encore sprayer is amazing! So often we have to clean brewery equipment that requires power to blast off dirty baked on materials from the beer making process. The PowerPulse Encore sprayer does the job. It's powerful and makes cleaning a breeze. It also uses very little water which is essential in a drought. It's easy to use and works perfect every time. I wouldn't question for a second getting another one if we ever need it, but with the quality of craftsmanship, I know it will last for a very long time."

"PLUMBING THAT WORKS!"™

High Efficiency Pre-Rinse Spray Valves (PRSV) save water BUT...
until now you sacrificed cleaning performance for water conservation—
not anymore.

The PowerPulse PRSV from Encore Premium Plumbing Products is a
patent pending design, which uses pulsating jets of water to power off
dried and baked on food in only 12 seconds. (Fisher Nickel test)

The PowerPulse PRSV with 1.05 GPM flow rate cleans 43% faster than our
fastest competitor and uses 58% less water than the next competitor.

The PowerPulse is also available in .74, .65 and .45 GPM flow rates for
those looking to save even more water.

*All flow rates are @ 60psi
